CUSTOM MANUFACTURING

Producing and packaging your products

We provide complete step by step manufacturing support to bring your product to market efficiently and cost-effectively.

- STAGE 1 — **Research and Development**
You will receive one-on-one expert consultation and advice for the development of your product whether it involves a new product or the reformulation of an existing product.
- STAGE 2 — **Unique Formulation**
Our Research and Development team, under the leadership of a Ph.D. in biochemistry, will use their experience to transform your concept into a scientific formulation in preparation for commercial production.
- STAGE 3 — **Product Development**
You will be advised in alternative production methodologies, appropriate container selection, suitable packaging designs, regulatory label requirements and much more
- STAGE 4 — **Pilot Runs**
These small volume runs test the process of producing your product. You are provided with samples that can be used to test your market at a reasonable cost and with a low investment risk.
- STAGE 5 — **Production!**

Examples of products we custom manufacture:

- Dental products (e.g. toothpastes and mouthwash)
- Tinctures and extracts
- Skin care products
- Essential oils
- Cosmetics
- Energy beverages
- Health beverages
- Alcoholic beverages (e.g. sample sized wine)
- Food products (e.g. sauces, pastes, dressings)
- Eco-friendly cleaning products
- And much more

PRIVATE LABELING

Branding on a budget

Natures Formulae will provide you with in-stock, market ready, and time tested products under your own private label. Benefit from our expertise and experience in producing herbal health products including:

Extracts, tinctures,
and tonics for both
humans and pets.

Lotions, soaps, cleansers,
ointments, salves
and lip balms.

We have been privileged to provide private labeling services for a variety of clients in the retail and service industries, as well as individuals seeking to create their own brand.

Natures Formulae currently has over 400 approved Natural Product Numbers (NPN's). If needed, we have a regulatory team that works closely with the Government of Canada to acquire further product licences.

Private labelling will:

- Save you time and money
- Expand your current market
- Increase your sales potential
- Increase customer loyalty
